## **JDRF WALK TO CURE DIABETES**

The JDRF Walk is an impactful way to raise money for critically needed type 1 diabetes (T1D) research and show your support for the millions of people affected by this serious disease.

Type 1 diabetes is an autoimmune disease in which a person's pancreas loses the ability to produce insulin — a hormone essential to turning food into energy. It strikes both children and adults suddenly and is unrelated to diet and lifestyle. It requires constant carbohydrate counting, blood-glucose testing, and lifelong dependence on injected insulin.

With T1D there are no days off, and there is no cure. That's why JDRF holds more than 200 Walks across the country every year to raise money for JDRF — the only global organization with a strategic research plan to end T1D. The JDRF Walk has raised more than \$1 billion through the hard work and generosity of supporters like you.

Walk Day is a day of hope and empowerment for children and adults affected by T1D. It provides them with a sense of community and support.

Thank you for your support of the JDRF Walk! Together, we will turn Type One into Type None.

For more info on the Walk visit [centralpa.jdrf.org](http://centralpa.jdrf.org)
